

WALKING AROUND The City

KARTELL

🚩 *Brompton Design District*

📍 Flagship Store, 223 - 225 Brompton Road

In 2017 the world celebrates the 50th anniversary of the launching of the Componibili collection. During the London Design Festival, it will be possible to experience 50 years of history through a journey full of pieces and authors, memories and quotes, a wave of creativity that flourished in the last five decades and doesn't seem to end.

DEVON&DEVON

🚩 *Decorex* | 📍 Booth C24

Much more than a service area: relaxation, beauty and wellbeing reign supreme in the bathroom, stylishly furnished like the interior in the photo, with bath tub and Devon&Devon wallpaper. Gianni Tanini, CEO, describes how "We felt the need to complete our offer with a collection of wallpapers which enabled us to bolster decorative potential for residential, hotelier and private home interiors".

MOLTENI&C | DADA AND KVADRAT

🚩 *Brompton Design District* | 📍 245-249 Brompton Road

Gio Ponti, one of the greatest masters of the 20th century, celebrated by Molteni&C | Dada and Kvadrat, in a docu-film by Francesca Molteni in collaboration with Gio Ponti archives. This homage comes under the Brompton district's macro-theme "Other Stories- alternative perspectives on design", and is accompanied by a modern reinterpretation of the Ponti's icons, curated by Vincent Van Duysen with Kvadrat fabrics.

NAHOOR

🚩 *London Design Fair* | 📍 Super Brands, Booth 3

At the London Design Fair Nahoor presents a limited edition of the *Mahari* piece (a historic product signed by William Pianta). For the occasion it was entirely upholstered with Nabuk leather available in 8 different shades. Here it will be also possible to see and feel the large version (diameter: 65 cm) of the *Ecliss* lamp in both versions, as a table piece and suspended.
