**Vortex**  
**Martin Huxford**

The Vortex chandelier, available in different finishes, features five graphic arms rotating upwards from a central column. The dynamic geometry of the light is accentuated by the angular patterns and spaces created by the asymmetric arms, each suspended at a different height.

**Pipistrello LED**  
**Martinelli Luci**

This diffused table and floor lamp features a stainless steel telescopic arm for height adjustment and a white opal methacrylate diffuser. The base and knob come in a titanium-colour finish, with white, black-brown or scarlet red lacquer, satin-finish aluminium, copper and gloss black finish also available.

**Bolt**  
**Tonone**

Designed by Anton de Groof, Bolt is the result of a fascination with traditional mechanics. The key element in this industrial, no-nonsense lamp design, is the joint construction that can be adjusted with a wing nut-shaped tool. Bolt comes in fourteen models, all available in seven colours.
